Powered by
SPARKLIT

```
<!-- Begin Sparklit Counter Code -->  
<SCRIPT LANGUAGE="JavaScript">  
jsurl = "http://counter.sparklit.com/counter_js.spar  
document.write("<SCRIPT LANGUAGE=\"JavaScript\" ");  
document.write(" src=\""+ jsurl + "?ID=249037");  
document.writeln("&c=" + Math.random()*10000 + "\">\n  
</SCRIPT>  
<!-- End Sparklit Counter Code -->
```

HIGHLIGHT AND COPY HTML CODE

Mail me my HTML code

4. Launch FirstClass. Open up your web publishing folder. Open up the page that you would like the counter to appear on. Paste the html code on the page. Select the html code and then go to Format → Format Text
5. Click the check box next to "Literal HTML." That will force a browser to read that text as HTML and display the counter for you.
