

To print one copy of a progress report or report card within FileMaker Pro7 click on **File** from the menu bar and drag down to **Print** or you can click on this icon whichever you prefer.

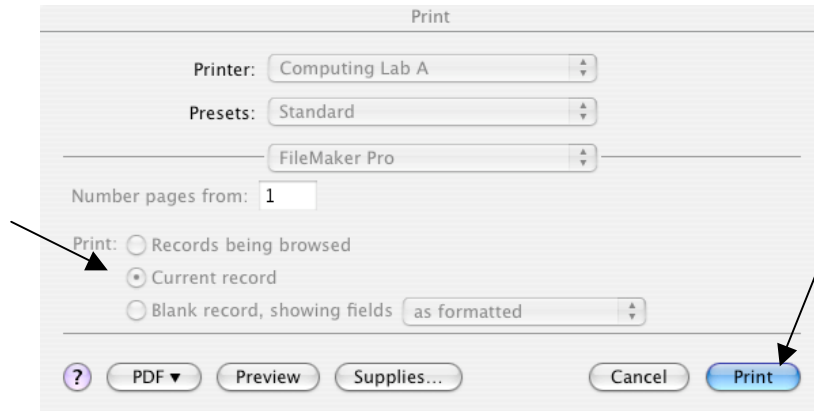

Which ever one you choose you should see the following screen:

Click where it says **Copies & Pages** and drag down to **FileMaker Pro**:

After you have selected FileMaker Pro the next screen will appear:

Click where it says **Current Record**.

When your ready click on the **Print** button or hit return.

If you want to print your whole class out then you are going to click on the button that says **Records being browsed** and you'd click on the **Print** button.
